EXAMINER'S AMENDMENT

1. Newly submitted claims 15-43 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

a. Claims 15-23 are directed to a method of molding and the claimed product in claims 1-12 can clearly be made from other well-known methods of making tennis racquet frames such as extrusion.

b. Claims 24-43 are directed to a racquet having mated upper and lower tube members and are considered to be distinct from the claimed product in claims 1-12 that are directed to a racquet having a split throat bridge because of their materially different design with mutually exclusive characteristics and there is nothing of record to show them to be obvious variants.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 15-43 have been withdrawn from consideration as being directed to a non-elected invention and species. See 37 CFR 1.142(b) and MPEP § 821.03.

2. This application is in condition for allowance except for the presence of claims 15-43 directed to inventions non-elected
